Business Summary

GWS Technologies, Inc. provides wind turbines, and other wind and solar products, as well as alternative energy solutions to the government and consumer markets. The company offers renewable energy product lines comprising industrial and consumer products based on alternative energy technologies, including wind turbines and solar chargers ranging from handheld devices that can power an iPod to large vertical wind turbines that can power a building. GWS Technologies, Inc. also offers homeland security and emergency products through its Web site firstresponderproducts.com. It sells its products and services through a combination of bidding on government contracts and directed sales efforts to large commercial entities, as well as sells to public safety agencies, commercial end users, and consumers via the Internet. The company was formerly known as First Responder Products, Inc. and changed its name to GWS Technologies, Inc. in June 2008. GWS Technologies, Inc. was incorporated in 2005 and is based in Scottsdale, Arizona.

With the exception of historical information, this document may include forward-looking statements that involve a number of risks and uncertainties. Actual results could differ materially from those anticipated as a result of various risks. There are numerous factors that could contribute to such differences, therefore such projected events and anticipated results are not warranties or guaranties that such events will occur or that the Company will achieve such results. For more information about this corporation and risks involved in the investment of their publicly traded shares, please see the company's website(s), and/or documents filed with the SEC, which are easily accessible in the EDGAR database system.
