### Business Summary

**Stem Cell Therapy International Inc.** ('SCTI') is in the field of regenerative medicine. SCTI is a company devoted to the treatment of patients with stem cell transplantation therapy as well as providing the supplies of biological solutions containing new lines of stem cell products.

These new stem cell solutions are being used in the treatment of patients suffering from degenerative disorders of the human body. SCTI operates in conjunction with advanced medical facilities devoted to the treatment of human physical disorders with stem cell transplantation therapy. The company intends to continue to establish relationships with highly specialized, professional medical treatment centers outside of the United States that will treat patients with stem cell transplantation therapy. In addition, SCTI intends to provide biological solutions containing new stem cell products in the United States to universities, institutes and privately funded laboratory facilities for research purposes and clinical trials.

With the exception of historical information, this document may include forward-looking statements that involve a number of risks and uncertainties. Actual results could differ materially from those anticipated as a result of various risks. There are numerous factors that could contribute to such differences, therefore such projected events and anticipated results are not warranties or guaranties that such events will occur or that the Company will achieve such results. For more information about this corporation and risks involved in the investment of their publicly traded shares, please see the company's website(s), and/or documents filed with the SEC, which are easily accessible in the EDGAR database system.
