Business Summary

Avro Energy Inc. is an independent energy company engaged in the acquisition, exploration and development of oil and natural gas properties in North America, with current operations in the ArkLaTex region. Avro's objective is to seek out and develop opportunities in the oil and natural gas sectors that represent low risk opportunities for the Company and its shareholders. In addition, Avro aims to seek larger projects that can be developed and produced with Joint Venture partners.

The ArkLaTex is a U.S. socio-economic region where Arkansas, Louisiana, Texas, and Oklahoma intersect. The region is centered on the Shreveport/Bossier metropolitan area in Northwest Louisiana. The region's history is heavily linked with the oil industry. The geology associated with the deposition of sediments from the Mississippi River, in particular, makes this area an abundant source for the oil and gas industries, which leads to the high levels of oil production within the region.

With the exception of historical information, this document may include forward-looking statements that involve a number of risks and uncertainties. Actual results could differ materially from those anticipated as a result of various risks. There are numerous factors that could contribute to such differences, therefore such projected events and anticipated results are not warranties or guaranties that such events will occur or that the Company will achieve such results. For more information about this corporation and risks involved in the investment of their publicly traded shares, please see the company's website(s), and/or documents filed with the SEC, which are easily accessible in the EDGAR database system.
