Business Summary

Beacon Energy Holdings, Inc. engages in the production and marketing of biodiesel. Biodiesel is a biodegradable, non-toxic and renewable, and natural alternative fuel, derived from various sources, including vegetable oils, animal fats, recycled cooking oils, and trap grease. The biodiesel is used in industrial facilities, commercial vehicle fleets, government fleets, mass transit vehicles, and marine applications. The company was founded in 2006 and is based in Cranford, New Jersey. Beacon Energy Corp. is dedicated to easing America's dependence on petroleum-based fuels as global oil reserves diminish and oil prices increase. We focus on building energy alternatives such as solar power and biodiesel. Our strategic investments in these areas are helping to further our energy security and alleviate the burden we place on our stressed environment.

With the exception of historical information, this document may include forward-looking statements that involve a number of risks and uncertainties. Actual results could differ materially from those anticipated as a result of various risks. There are numerous factors that could contribute to such differences, therefore such projected events and anticipated results are not warranties or guaranties that such events will occur or that the Company will achieve such results. For more information about this corporation and risks involved in the investment of their publicly traded shares, please see the company's website(s), and/or documents filed with the SEC, which are easily accessible in the EDGAR database system.
