Business Summary

Novo Energies Corporation (OTCBB: NVNC) is an exciting renewable energy company. The Company, through its subsidiary WTL Renewable Energy Corporation, has developed and designed a new effective process which combines Thermolysis and Gasification to transform plastics and tires waste to liquid fuels.

The Company intends to become a leader in the waste to energy industry. The alternative energy industry is likely to grow exponentially over the next couple of decades as a major worldwide impetus is provided to reduce depletion of natural resources and reduce dependence on foreign oil.

With the exception of historical information, this document may include forward-looking statements that involve a number of risks and uncertainties. Actual results could differ materially from those anticipated as a result of various risks. There are numerous factors that could contribute to such differences, therefore such projected events and anticipated results are not warranties or guaranties that such events will occur or that the Company will achieve such results. For more information about this corporation and risks involved in the investment of their publicly traded shares, please see the company's website(s), and/or documents filed with the SEC, which are easily accessible in the EDGAR database system.
